Sharing the Superhero Lab Results Across Europe

Welcome to the sixth and final newsletter of The Superhero Lab!

As the project comes to an end, partners have been sharing its results with kindergarten teachers, educators, and stakeholders across Europe.

Superhero Lab Online Conference

The partners organised an Online Conference to present the project's main results and educational resources.

The event highlighted the Superhero Lab experiments, teaching materials, and experiences from kindergartens across Europe, showing how STEM activities can make sustainability education fun and engaging for young children.

Final Project Meeting in Greece!

On 20–21 October 2026, the Superhero Lab partners gathered in Karditsa, Greece, for our final Transnational Project Meeting, hosted by E-SCHOOL Educational Group, with some partners joining us online!

During this two-day meeting, partners reviewed the project's achievements, evaluated the educational resources developed, and discussed the impact and long-term sustainability of its results.

Multiplier Events Across Europe

The Superhero Lab partners organised Multiplier Events in **Germany, Austria, Sweden, Greece, Slovenia, and Lithuania** to share the project's results with local educators and stakeholders.

During these events, participants discovered the project's educational resources and learned how to use the Superhero Lab activities in their kindergartens.

The events helped promote the project's results and encourage their use beyond the project's lifetime.

The Superhero Lab Journey Continues!

The project may be ending, but its educational resources remain freely available to all teachers!
